R # of Total Cars: # The number should be rounded down to a whole number when adding Garage # 1 and # 2. Tandem spaces may be counted.

Other Garage Features are required to be reported in the Features.

Above Grade SqFt: is defined as space on any level of a building that has finished square footage and no earth adjacent to any exterior wall on that level. Space that is "at" or "on grade" is considered above grade.

Below Grade SqFt: is defined as a space on any level of a building that has finished square footage, is accessible by interior stairs, and has earth adjacent to any exterior wall on that level. If earth is adjacent to any portion of a wall, the entire level is considered "below-grade".

Finished room on any level must be: space that is intended for human occupancy; heated by a permanently installed heating system(s)*; directly accessible from other living areas through a door or by a heated hallway or stairway, **except** for a finished lower level room or bathroom; and finished with all walls, floors, and ceilings in materials generally accepted for interior finished construction (for example, painted drywall/sheet rock or paneled walls, carpeted or vinyl or hardwood flooring, etc.)

The Finished space must be **heated**, have finished **walls**, have a finished **ceiling** (no exposed floor joists), and have a finished **floor** (painted concrete walls or floors does not count). If *one of these four components* is missing, the space may still be counted as "finished square feet", **but disclosure of the missing component must be included in RANW MLS Public Remarks.** This finished space rule applies to all room levels.

The property exception to this rule would be a **Seasonal Dwelling with non-permanent heat source.** The Seasonal Dwelling may include the finished square footage, and if there is any form of heat source it is to be included in Public Remarks.

*Permanently Installed Heat Sources that may be considered for finished rooms: Gas Furnace, Oil Fired furnace, Permanently Wired Electric Heat or other source that operate without human intervention for extended periods of time, with an allowable exception of a Seasonal Dwelling property with no permanent heat sources

Unfinished Area: Space that does not meet the criteria for finished square footage but which contributes to the value of the dwelling may be included in Unfinished Rooms Dimensions and MLS Remarks if applicable, but may not be included in finished square footage or in finished rooms. For example: Rec Room, unfinished bonus rooms, Three Season Room, Porches (see Unfinished Rooms Section.) **Do not report square footage for Unfinished Areas.**
